The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to:

Acknowledgments

Many people have contributed to the development of *Historically Black Colleges and Universities*, 1976 to 2001. Stephen Provasnik and Linda L. Shafer of Education Statistics Services Institute (ESSI) of American Institutes for Research were responsible for the overall development and preparation of this publication, which was prepared under the general direction of Thomas D. Snyder of the National Center for Education Statistics (NCES) with technical review by Marilyn Seastrom (Chief Statistician of NCES). Deven Carlson, Scott Dorman, Charlene Hoffman, Fraser Ireland, Rebecca Shwalb, and Benjamin Young (formerly) of ESSI provided research and statistical assistance. Susan Lapham (ESSI) reviewed several drafts of the report. William Hussar and Val Plisko of NCES and Erin Gammill (formerly) and Dan McGrath of ESSI assisted with the technical review of the document. Heather Block of ESSI assisted with graphic design.

Historically Black Colleges and Universities, 1976 to 2001 has received extensive reviews by several other individuals within and outside of the Department of Education. We wish to thank them for their time and expert advice. Susan G. Broyles and Frank B. Morgan of NCES reviewed the entire manuscript. ReShone Moore of the White House Initiative on Historically Black Colleges and Universities also reviewed the document.

Summary

Introduction

This report presents a statistical overview of historically Black colleges and universities (HBCUs) from 1976 to 2001. HBCUs are institutions established prior to 1964, whose principal mission is the education of Black Americans.

Although most HBCUs are 4-year institutions in the southern United States, they represent a diverse set of institutions in 19 states, the District of Columbia, and the Virgin Islands. They are both public and private; single-sex and coeducational; predominantly Black and predominantly White; 2-year and 4-year colleges; research universities, professional schools, community colleges, and small liberal arts colleges.

Three colleges for Blacks were established before 1862. Cheyney University of Pennsylvania was established in the 1830s. Lincoln University in Pennsylvania and Wilberforce College in Ohio were established in the 1850s. In 1862, the first land grant college provisions, known as the First Morrill Act, were enacted by Congress. By the late 1860s, Morrill Act funds were distributed to the states, with the intention that they would foster educational opportunity for all students, especially newly freed Blacks. Congress passed the Second Morrill Act in 1890 that required states with dual systems of higher education (all-White and non-White) to provide land-grant institutions for both systems. Nineteen land-grant institutions for Blacks were organized and were initially non-degree-granting agricultural, mechanical, and industrial schools. In 1965, Congress introduced its institutional aid program for HBCUs (20 USC 1060). This E.D. TAB report presents tabular data on institution enrollment, degrees conferred, staff and salaries, revenues, expenditures, and student financial aid.

Data

The data used in this report are from the Integrated Postsecondary Education Data System (IPEDS) and, prior to 1986, its predecessor survey, the Higher Education General Information Survey (HEGIS). The trend tables draw on HEGIS and IPEDS surveys that collected information concerning enrollment, institutional finances, student financial aid, salaries, tenure and fringe benefits, staff, and degree completions. According to section 490 of the Higher Education Amendments of 1992 (P.L. 102-325), IPEDS is mandatory for any institutions that participate in or are applicants for participation in any federal financial assistance program authorized by Title IV of the Higher Education Act of 1965, as amended [20 USC 1094 (a)(17)]. For the spring 2002 data collection, the overall response rate was 98.6 percent for degree-granting institutions (including those eligible for Title IV federal financial aid programs and that grant an associate's or higher degree) and 98.6 percent for non-degree-granting institutions. In addition, other postsecondary institutions that do not participate in Title IV programs are invited to participate. Of the approximately 10,000 postsecondary institutions surveyed in 2002, some 6,696 institutions were Title IV programs and are the basis for comparison in the analysis.

IPEDS is a universe survey with missing data subject to imputation for nonresponse in the enrollment, degree, staff, and finance data. Because IPEDS is a census of the population of Title IV schools, the data presented here are not subject to sampling error. However, they are subject to nonsampling error, the sources of which vary with the survey instrument. A technical appendix is included that explains the data sources in more detail.

Selected Findings

Enrollment

• Total fall enrollment in HBCUs was about 290,000 in 2001 (table 1). For the past four decades, women have made up a larger proportion of enrollment in these institutions than men (figure 1); in 2001, women made up 61 percent of enrollment.

Table 1. Fall enrollment in historically Black colleges and universities (HBCUs), by sex and attendance status of student, and type and control of institution: 2001

Sex of student, and type and control of institution	HBCU enrollment	Enrollment in HBCUs as a percentage of all institutions	Black HBCU enrollment as a percentage of all Black enrollment
Total	289,985	1.8	12.9
Men	112,874	1.6	13.5
Women	177,111	2.0	12.6
Full-time	222,453	2.4	18.4
Part-time	67,532	1.0	5.6
2-year	29,438	0.5	1.8
4-year	260,547	2.7	21.3
Public	210,083	1.7	11.8
2-year	28,737	0.5	1.8
4-year	181,346	2.9	23.2
Private	79,902	2.2	16.4
2-year	701	0.3	1.4
4-year	79,201	2.3	18.2

NOTE: Black includes African American and excludes Hispanic origin.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS), Spring 2002 survey. (This table was prepared in April 2004.)

- In 2001, 90 percent of HBCU students attended 4-year institutions and 10 percent attended 2-year institutions. HBCU students were more likely to attend public institutions than private, not-for-profit institutions (72 vs. 28 percent) (derived from table A-2).
- Two percent of all college students were enrolled in HBCUs in 2001. Black enrollment at HBCUs accounted for 13 percent of all Black enrollment (table 1).
- In 2001, Blacks constituted 82 percent of all those enrolled in HBCUs and in 1976, they made up 85 percent (table A-7).

Figure 1. Fall enrollment in historically Black colleges and universities, total and by sex: 1976 to 2001

SOURCE: U.S. Department of Education, National Center for Education Statistics, 1976 through 1985 Higher Education Information Survey (HEGIS), "Fall Enrollment in Colleges and Universities"; 1986 through 2001 Integrated Postsecondary Education Data System (IPEDS), "Fall Enrollment Survey" (IPEDS-EF:86–99), Spring 2001, and Spring 2002. (This figure was prepared in April 2004.)

Degrees conferred by HBCUs

- More bachelor's degrees than other degrees were awarded by HBCUs in 2001–02 (table 2).
- Compared with other racial/ethnic groups, Blacks earned the highest proportion of degrees awarded by HBCUs in 2001 at each level—associate's, bachelor's, master's, doctor's, and first-professional degrees (tables A-15 through A-19). Blacks earned 87 percent of bachelor's degrees (table A-16).
- In 2001, more than one-fifth of all bachelor's degrees awarded to Blacks were from HBCUs (figure 2). Compared with 1976–77, there were proportionately fewer Blacks earning bachelor's degrees at HBCUs in 2001–02 (35 percent vs. 22 percent). (Although the number of bachelor's degrees earned by Blacks at HBCUs increased from 20,800 to 25,100 during this period, the number of Blacks earning degrees at other types of institutions has risen more rapidly) (tables A-16 and A-20).
- Since 1990–91, 60 percent or more of associate's, bachelor's, and master's degrees at HBCUs have been earned by women. At HBCUs since 1994–95, women have earned more than half of the first-professional degrees, and since 1999–2000, women have earned more than half of the doctor's degrees (derived from table A-26).

Table 2. Degrees conferred by historically Black colleges and universities (HBCUs) by degree: 2001–02

Degree	Number of degrees	HBCU degrees as a percentage of all degrees awarded	HBCU degrees to Blacks as a percentage of all degrees to Blacks
Associate's	3,436	0.6	2.8
Bachelor's	28,846	2.2	21.5
Master's	6,338	1.3	11.0
Doctor's	364	0.8	10.7
First-professional	1,427	1.8	17.2

NOTE: Black includes African American and excludes Hispanic origin.

Figure 2. Percentage of degrees earned by Blacks at historically Black colleges and universities as a percentage of all degrees earned by Blacks: 1976–77 to 2001–02

SOURCE: U.S. Department of Education, National Center for Education Statistics, 1976–77 through 1985–86 Higher Education Information Survey (HEGIS), "Degrees and Other Formal Awards Conferred"; 1986–87 through 2001–02 Integrated Postsecondary Education Data System (IPEDS), "Completions Survey" (IPEDS-C:86–87 through 98–99), Fall 2001, and Fall 2002. (This figure was prepared in April 2004.)

Staff and salaries

- Of the 14,100 full-time faculty at HBCUs in 2001, 72 percent were members of minority groups. Of full-time faculty, 58 percent were male and 42 percent were female. Blacks constituted 60 percent of the full-time faculty at HBCUs and Whites constituted 27 percent (derived from table A-46).
- In 2001, 54,551 persons were employed at HBCUs, of which 76 percent were Black (table A-42).
- In 2001–02, average salaries of full-time instructional faculty on 9-month contracts at HBCUs were 81 percent of what they were in all institutions. Since 1976–77, the

average salaries at HBCUs have been around 80 percent of those at all institutions (ranging from 79 to 84 percent) (table A-49).

Amount in 2000-01 constant dollars 18,000 16,000 14,000 12,000 10,000 8,000 6,000 4,000 2,000 1976-77 1979-80 1982-83 1985-86 1988-89 1991-92 1994-95 1997-98 2000-01 Year

Figure 3. Educational and general expenditures per full-time-equivalent student in public historically Black colleges and universities and in all public institutions: 1976–77 to 2000–01

SOURCE: U.S. Department of Education, National Center for Education Statistics, 1976–77 through 1985–86 Higher Education Information Survey (HEGIS), "Fall Enrollment in Colleges and Universities" and "Financial Statistics of Institutions of Higher Education"; 1986–87 through 2000–01 Integrated Postsecondary Education Data System (IPEDS), "Finance Survey" (IPEDS-F:Y87 through FY99) and "Fall Enrollment Survey" (IPEDS-EF:87–99), Spring 2000, Spring 2001, and Spring 2002. (This figure was prepared in April 2004.)

Finance

- Private, not-for-profit HBCUs in 1996–97 derived 22 percent of their revenue from student tuition and fees; by 2000–01, the proportion had increased to 25 percent (table A-61).
- In 1976–77, current-fund revenue for public HBCUs from tuition and fees was 14 percent; in 2000-01, it had increased to 20 percent (table A-60).
- Educational and general expenditures per full-time-equivalent (FTE) student for public HBCUs increased from \$10,059 in 1976–77 to \$15,085 in 2000–01 (in constant 2000-01 dollars); expenditures per FTE student for all public institutions increased from \$10,804 in 1976–77 to \$16,525 in 2000–01 (constant 2000-01 dollars) (figure 3 and table A-50).
- Private, not-for-profit HBCUs spent less per FTE student in instructional expenditures than all private, not-for-profit colleges and universities. In 2000–01, HBCUs averaged \$7,732 and all institutions averaged \$10,662—a difference of \$2,930 (table A-51).

Student financial aid

- Full-time, first-time undergraduate students enrolled at HBCUs were slightly more likely to receive financial aid, compared with full-time, first-time students attending all institutions (77 vs. 70 percent) (figure 4). Over 80 percent of students enrolled in private not-for-profit 4-year schools received financial aid whether or not the school was an HBCU (table A-64).
- The average federal grant amount for students enrolled in private, not-for-profit 4-year HBCUs was \$3,200, and the comparable average for all private, not-for-profit 4-year schools was \$2,900 (table A-64).
- Average institutional grant amounts for HBCU students attending 2- and 4-year public schools were higher than for all 2- and 4-year public school students. The opposite was the case for 2- and 4-year private, not-for-profit schools. The average institutional grant amount was \$7,500 for all 4-year private, not-for-profit school students and \$4,500 for HBCU students (table A-64).

Figure 4. Percent of full-time, first-time degree or certificate-seeking undergraduate students receiving financial aid at all degree-granting institutions and at historically Black colleges and universities, by type and control: 2001

[†] Not applicable.

NOTE: Data since 1996 are for degree-granting institutions. Data for 1976 to 1995 are for institutions of higher education. Institutions of higher education were accredited by an agency or association that was recognized by the U.S. Department of Education, or directly recognized by the Secretary of Education. The new degree-granting classification is very similar to the earlier higher education classification, except that it includes some additional institutions, primarily 2-year colleges, and excludes a few higher education institutions that did not award an associate's or higher degrees.

SOURCE: U.S. Department of Education, National Center for Education Statistics, 1976 through 1985 Higher Education General Information Survey (HEGIS), "Fall Enrollment in Colleges and Universities"; 1986 through 2001 Integrated Postsecondary Education Data System (IPEDS), "Fall Enrollment Survey" (IPEDS-EF:86-99), Spring 2001, and Spring 2002. (This table was prepared in April 2004.)

# Rounds to zero.														

[#] Rounds to zero.

MOTE: American Indian includes Alaska Native, Black includes African American, Pacific Islander includes Native Hawaiian, and Hispanic includes Latino. Racial categories exclude Hispanic origin. Data for students whose racial/ethnic group was not reported were prorated at the institution level, by sex, level of student, and attendance status. Detail may not sum to totals because of rounding.

#Rounds to zero

NOTE: American Indian includes Alaska Native, Black includes African American, Pacific Islander includes Native Hawaiian, and Hispanic includes Latino. Racial categories exclude Hispanic origin. Data for students whose racial/ethnic group was not reported were prorated at the institution level, by sex, level of student, and attendance status. Detail may not sum to totals because of rounding.

⁻Not available.

³Founded as the Alabama State Branch by Mrs. Fredericka Evans and Dr. H. Council Trenholm, President of Alabama State College. In 1936, the College began offering a two-year curriculum as part of the parent institution, Alabama State University. In 1965, the College became an independent junior college and the name was changed to Mobile State Junior college. In 1971, the name of the institution was changed to honor its first President, Dr. S.D. Bishop. In 1993 Carver State Technical College and Southwest State Technical College merged with Bishop State Community College.

⁵Formerly called Alabama Lutheran Academy and College. In 1981 changed name to Concordia College. Affiliated with the Lutheran Church, Missouri Synod.

⁶School closed in 1977.

⁷Gadsden State Community College opened in 1960 as Gadsden Vocational Trade School, a private training facility. October 1, 1998 it became officially an historically Black college.

⁸In October 1973, Wenonah Vocational Trade School for Negroes (founded in 1949) and Theodore Alfred Lawson State Junior College (founded in 1963 and known as the Wenonah State Technical Junior College between 1963 and 1969) merged as a result of Alabama legislation adopted June, 1972.

⁹Prior to closing in 1984, the school was affiliated with the African Methodist Episcopal Zion Church.

 $^{\rm 10}{\rm Lost}$ Title IV accreditation in 1996.

 11 C.A. Fredd State Technical College merged with Shelton Sate Community College on February 1993. Enrollment is for C.A. Fredd State Technical College only.

¹²Affiliated with the Presbyterian Church.

 $^{\rm 13}{\rm Was}$ the first school in Alabama to admit students regardless of race.

¹⁴Founded by Booker T. Washington. Formerly called Tuskegee Institute.

¹⁵Lost Title IV accreditation in 1998.

¹⁶Founded as Branch Normal College, it continued from 1927 until 1972 as Arkansas Agricultural, Mechanical, and Normal College. In 1972, it joined four other campuses to comprise the University of Arkansas System.

¹⁷Founded as a coeducational and multiracial private university in 1867 by an act of the U.S. Congress, the University is named after General Oliver Otis Howard, Commissioner of the Freedmen's Bureau.

¹⁸The roots of the University of the District of Columbia, the nation's only metropolitan, land-grant institution of higher education, stretch back to 1851 when Myxtilla Miner opened a school to prepare Black women to teach. In 1976, three public higher education institutions, D.C. Teachers College, Federal City College, and Washington Technical Institute, were merged into the University of the District of Columbia. This merger caused the enrollment increase between 1976 and 1980.

¹⁹Was formerly included in the University of the District of Columbia. In 1997, it started reporting separately.

²⁰Upon the merger in 1923 of Cookman Institute for Men, founded in 1872 by the Reverend D.S.B. Darnell, and Daytona Normal and Industrial Institute for Women, founded in 1904 by Dr. Mary McLeod Bethune, the institution became the Daytona Cookman Collegiate Institute and was taken over by the Board of Education of the Methodist Church. The name was later changed to Bethune-Cookman College.

 21 Founded as Brown Theological Institute. Affiliated with the African Methodist Episcopal Church.

 22 Designated as a land-grant institution in 1891 and became a university in 1953. Founded in 1887 as the State Normal College for Colored Students.

 $^{23}\mbox{Affiliated}$ with the Baptist church.

²⁴Atlanta University and Clark College merged in July, 1989, to become Clark Atlanta University.

²⁵In 1929, the college became an exclusively graduate and professional institution, the first with a predominantly Black student body; merged with Clark College in 1989.

 $^{\rm 26}\mbox{Founded}$ as the first Methodist affiliated college to serve Blacks.

²⁷The Fort Valley Normal and Industrial School merged with the Forsyth State Teachers and Agricultural College in 1939 to become Fort Valley State College.

²⁸Morehouse School of Medicine began in 1975 as a medical program within Morehouse College. In April 1985, the school was granted full accreditation to award an M.D. degree.

 $^{\mathrm{29}}\mathrm{Affiliated}$ with the African Methodist Episcopal Church.

³⁰Called Georgia State College until 1947. It served as the state land-grant institution for Blacks until this function was transferred to Fort Valley State College. The Regents of the University System changed the name to Savannah State College in 1950.

³¹The nation's oldest undergraduate liberal arts college for Black women.

32 Affiliated with the United Church of Christ and the United Methodist Church.

 33 Founded by Charles P. Adams. Is a multi-purpose, state-supported, coeducational institution.

 $^{^{34}}\mathrm{The}$ only historically Black institution with Catholic affiliation.

35Bowie State University is part of the University of Maryland System. Formerly Bowie State College.

 $^{\rm 36}{\rm Coppin}$ State College is part of the University of Maryland System.

³⁷Founded by Dr. Violet T. Lewis to provide postsecondary business education to urban dwellers unable to obtain training from other institutions.

³⁸Was established as Coahoma Junior College in 1949. In 1989, the College was renamed Coahoma Community College.

^{*}Land-grant college.

^{1 =}public, 4-year; 2 =public, 2-year; 3 = private, not-for-profit, 4-year; 4 = private, not-for-profit, 2-year.

²Founded as the Lincoln Normal School, a private institution. In 1874, became first state-supported historically Black college.

⁴In 1993 Carver State Technical College merged with Bishop State Community College.

Table A-9. Fall enrollment in degree-granting historically Black colleges and universities, by state, year established, control and type, and institution: Various years, 1976 to 2001—Continued

³⁹Founded by Dr. William H. Holtzclaw. Formerly called Utica Junior College then Hinds Junior College, and now Hinds Junior College, Utica Campus.

⁴⁰Lost accreditation in 1983 and closed in 1986. Lane College in Tennessee maintains their records.

 $^{\rm 41}{\rm School}$ lost accreditation.

 42 Formerly Prentiss Normal and Industrial Institute. Closed in 1990.

⁴³In 1869, the American Missionary Association of New York established a school for the training of young people irrespective of their religion and race.

⁴⁴Founded in 1857 as the first teacher education institution west of the Mississippi. Was formerly known as Harris Teachers College and Harris Stowe College.

⁴⁵A land-grant, comprehensive, multi-purpose institution of higher education founded by members of the 62nd and 65th U.S. Colored Infantry units as Lincoln Institute in 1866.

⁴⁶Founded as Scotia Seminary, a preparatory school for young Black women. In 1916 changed its name to Scotia Women's College. Merged with Barber Memorial College in 1930. In 1932 changed name to Barber-Scotia College and then became coeducational in 1954. Historically affiliated with the Presbyterian Church (USA).

 47 Founded as a coeducational institution and reorganized as a women's college in 1926. Is affiliated with the United Methodist Church.

⁴⁸Founded as a Normal School for the specific purpose of teaching and training Black teachers to teach in the common schools. Since 1972, it has been part of the 16-campus University of North Carolina System. Granted its first degrees in 1939 when it was known as Elizabeth City State Teachers College.

⁴⁹Began as Howard School in 1867. In 1877 its name was changed to the State Colored Normal School. In 1939, the institution began a 4-year program and became Fayetteville State Teachers College marking the beginning of a 4-year curriculum. In 1972, became part of the University of North Carolina System.

⁵⁰Founded by Dr. James E. Shepard. In 1925, became the nation's first state-supported liberal arts college for Black people.

⁵¹Founded as Slater Industrial Academy. Became Winston-Salem Teachers College, the first Black institution in the U.S. to grant degrees for teaching in the elementary grades.

 52 Originated as a separate department of Wilberforce University in 1887. Became independent in 1947.

53 Founded as the first coeducational college for Blacks. Affiliated with the African Methodist Episcopal Church.

 54 Was founded as the Colored Agricultural and Normal University. The present name was adopted in 1941.

⁵⁵Founded by Richard Humphreys, a Philadelphia Quaker. It is the nation's oldest historically Black institution of higher learning. Began as a high school in 1837 and offered its first baccalaureate degree in the 1930's. Formerly known as Cheyney State College.

⁵⁶It was chartered as Ashmun Institute, an all-male institution, and remained as such for almost 100 years. It graduated its first woman in 1953, but it did not become fully co-educational until 1965.

⁵⁷Founded under the auspices of the African Methodist Episcopal Church.

58 Founded by two Methodist laymen from Massachusetts, William and Lee Claflin.

⁵⁹School lost accreditation in 1992. Affiliated with the African Methodist Episcopal Zion Church.

60 Founded as an all Black trade school. In 1969, became a 2 branch campus of the South Carolina technical education system.

 $^{61}\text{Closed}$ in 1982. Formerly known as Friendship Junior College.

⁶²Founded by Elizabeth Evelyn Wright, it is a coeducational, liberal arts college.

⁶³Incorporated under the laws of the State of Tennessee on August 22, 1867. The purpose was the education and training of young Black men and women.

⁶⁴In 1989, Morristown College merged with Knoxville College. Knoxville was founded in 1875 by the United Presbyterian Church of North America. Lost Title IV accreditation in 1996.

⁶⁵Founded by the Colored (Christian) Methodist Episcopal Church as the C.M.E. High School, and became Lane College in 1895.

66 In 1968 LeMoyne College and Owen College merged.

⁶⁸After closing in 1988, Morristown was annexed by Knoxville College in 1989.

 69 Founded in 1912 as the Tennessee Agriculture and Industrial State Normal School for Negroes. It merged with the University of Tennessee at Nashville in 1979 and now has two campuses.

 $^{70}\mbox{Closed}$ in 1988; was affiliated with the Baptist Church.

Table 1875) and Samuel Huston College (founded in 1875) and Samuel Huston College (founded in 1876). Is supported by the United Methodist Church and the United Church of Christ.

72A private coeducational college founded in 1912 and affiliated with the Christian Church (Disciples of Christ).

 73 Paul Quinn College was established in Austin, Texas, by the African Methodist Episcopal church. The college moved to Dallas in 1990 to the campus formerly occupied by Bishop College which closed in 1988.

 $^{74}\mbox{St.}$ Philip's College is also an Hispanic serving institution.

75 Formerly a 2-year institution, it became a 4-year institution offering bachelor's degrees in 1984.

 $^{76} Lost \ Title \ IV$ accreditation in 1996 and 1997. In 1998, became eligible again.

⁷⁷Founded as the Houston Colored Junior College. Its successor, Houston College for Negroes was transferred to the State of Texas following passage of a bill creating Texas State University for Negroes. Established as a State University in 1947. The name was changed to Texas Southern University in 1951.

⁷⁸Founded by General Samuel Chapman Armstrong. Hampton is Virginia's only coeducational, non-denominational 4-year private college. Formerly known as Hampton Institute and Hampton College.

79Formerly known as Norfolk State College.

80 Changed name to Virginia Seminary and College. Closed in 1980.

⁸¹The first fully state-supported, four-year bachelor's degree Black college in America. Founded in March, 1882, when the Virginia legislature passed a bill to charter the Virginia Normal and Collegiate Institute. Formerly known as Virginia State College.

⁸²This is a public, coeducational, land-grant institution that was founded in 1962 by enabling legislation of the Virgin Islands Legislature. Formerly known as College of the Virgin Islands.

NOTE: The enrollment data for some schools are estimated on the basis of the previous year's enrollment. See methodology section.

†Not applicable.

NOTE: Black includes African American and excludes Hispanic origin.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS), Fall 2002. (This table was prepared in April 2004.)

¹Includes degrees in area and ethnic studies; English language, literature, and letters; foreign languages; liberal/general studies; multi/interdisciplinary studies; philosophy and religion; theology; and visual and performing arts.

 $^{^{2}\}mbox{Includes}$ psychology and social sciences and history.

³Includes biological sciences; physical sciences; science technologies; and mathematics.

⁴Includes computer and information sciences; construction trades; engineering; engineering technologies; and mechanics and repairers.

⁵Includes agriculture and natural resources; architecture and environmental design; communications; communications technologies; health sciences; home economics; vocational home economics; law; library and archival sciences; military sciences; parks and recreation; precision production; protective services; public affairs; and transportation and material moving.

 $^{^{\}rm 6}{\rm Hinds}$ College data on field of study are estimated.

MOTE: Other races include American Indian, Alaska Native, nonresident alien, and not identified. American Indian includes Alaska Native, Black includes African American, Pacific Islander includes Native Hawaiian, and Hispanic includes Latino. Racial categories exclude Hispanic origin. Non-faculty professional includes persons employed for the primary purpose of performing academic support, student service, and institutional support, whose occupation would require a bachelor's degree or higher.

Thata adjusted by the Consumer Price Index, prepared by the Bureau of Labor Statistics, averaged on an academic year time frame.

Refers only to average salary of full-time instructional and research faculty for all ranks.

NOTE: Data for years prior to 1989-90 exclude imputations for survey nonresponse.

	he Consumer F							artment of L		

¹Based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

NOTE: FTE student means full-time-equivalent student. Data for 1995-96 and earlier years are for institutions of higher education. Institutions of higher education were accredited by an agency or association that was recognized by the U.S. Department of Education, or recognized directly by the Secretary of Education. Data for 1996-97 and later years are for 4-year and 2-year degree-granting institutions that were participating in Title IV federal financial aid programs.

¹Carver State Technical College merged with Bishop State Community College in 1993.

²Gadsden State Community College opened in 1960 as Gadsden Vocational Trade School, a private training facility. October 1, 1998 it became officially an historically Black college.

³Was formerly included in the University of the District of Columbia. In 1997, it started reporting separately.

^{*}MCES estimates.

¹Included under restricted grants and contracts.

²Excludes Pell Grants. Federally supported student aid that is received through students is included under tuition and auxiliary enterprises.

³Generally includes only those revenues associated with major federally funded research and development centers (FFRDC). NOTE: Detail may not sum to totals because of rounding.

⁻Not available.

NOTE: Detail may not sum to totals because of rounding. Current-fund expenditures also includes hospitals and independent operations; however, historically Black colleges and universities generally did not report any current-fund expenditures in these categories. Total for 1998-99 includes \$176,000 for independent operations which is not shown separately.

†Not applicable

NOTE: Student financial aid data are not imputed. The response rates for all institutions on this table range from 90.5 percent to 99.3 percent. The numbers shown reflect only those institutions that reported the number of recipients by types of financial aid. The sum of recipients receiving each type of aid does not sum to total number of recipients, because recipients may receive multiple types.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Data System (IPEDS), Spring 2002. (This table was prepared in April 2004.)

Each average value was calculated by dividing the total grants (or loans) awarded by the total number of recipients.

 $^{^2}$ Student loans include only loans made directly to students; federal loans to parents (PLUS) and other loans made directly to parents are not included.

Appendix B: Glossary

Academic support This category of college expenditures includes expenditures for support services that are an integral part of the institution's primary missions of instruction, research, or public service. Includes expenditures for libraries, galleries, audio/visual services, academic computing support, ancillary support, academic administration, personnel development, and course and curriculum development.

Appropriation (institutional revenues)

An amount (other than a grant or contract) received from or made available to an institution through an act of a legislative body.

Associate's degree A degree granted for the successful completion of a sub-baccalaureate program of studies, usually requiring at least 2 years (or equivalent) of full-time college-level study. This includes degrees granted in a cooperative or work-study program.

Auxiliary enterprises This category includes those essentially self-supporting operations which exist to furnish a service to students, faculty, or staff, and which charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, college stores, and intercollegiate athletics.

Bachelor's degree A degree granted for the successful completion of a baccalaureate program of studies, usually requiring at least 4 years (or equivalent) of full-time college-level

study. This includes degrees granted in a cooperative or work-study program.

Business Program of instruction that prepares individuals for a variety of activities in planning, organizing, directing, and controlling business office systems and procedures.

College A postsecondary school which offers general or liberal arts education, usually leading to an associate's, bachelor's, master's, doctor's, or first-professional degree. Junior colleges and community colleges are included under this terminology.

Constant dollars Dollar amounts that have been adjusted by means of price and cost indexes to eliminate inflationary factors and allow direct comparison across years.

Consumer Price Index (CPI) This price index measures the average change in the cost of a fixed market basket of goods and services purchased by consumers.

Control (of institutions) A classification of institutions of elementary/secondary or higher education by whether the institution is operated by publicly elected or appointed officials (public control) or by privately elected or appointed officials and derives its major source of funds from private sources (private control).

Current dollars Dollar amounts that have not been adjusted to compensate for inflation.

Current-fund expenditures (higher education) Money spent to meet current operating costs, including salaries, wages, utilities, student services, public services, research libraries, scholarships and fellowships, auxiliary enterprises, hospitals, and independent operations. Excludes loans, capital expenditures, and investments.

Current-fund revenues (higher education) Money received during the current fiscal year from revenue which can be used to pay obligations currently due, and surpluses reappropriated for the current fiscal year.

Degree-granting institutions

Postsecondary institutions that are eligible for Title IV federal financial-aid programs and that grant an associate's or higher degree. For an institution to be eligible to participate in the Title IV financial-aid program, it must offer a program of at least 300 clock hours in length, have accreditation recognized by the Department of Education, have been in business for at least 2 years, and have signed a participation agreement with the Department.

Doctor's degree An earned degree carrying the title of Doctor. The Doctor of Philosophy degree (Ph.D.) is the highest academic degree and requires mastery within a field of knowledge and demonstrated ability to perform scholarly research. Other doctorates are awarded for fulfilling specialized requirements in professional fields, such as education (Ed.D.), musical arts (D.M.A.), business administration (D.B.A.), and engineering (D.Eng. or D.E.S.). Many doctor's degrees in academic and professional fields require an earned master's degree as a

prerequisite. First-professional degrees, such as M.D. and D.D.S., are not included under this heading.

Educational and general expenditures

The sum of current funds expenditures on instruction, research, public service, academic support, student services, institutional support, operation and maintenance of plant, and awards from restricted and unrestricted funds.

Endowment assets Gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations.

Endowment funds Funds whose principal is nonexpendable (true endowment) and that are intended to be invested to provide earnings for institutional use. Also includes term endowments and funds functioning as endowment.

Endowment income Endowment income includes: (1) the unrestricted income of endowment and similar funds; (2) restricted income of endowment and similar funds to the extent expended for current operating purposes, and (3) income from funds held in trust by others under irrevocable trusts. Excludes capital gains or losses unless the institution has adopted a spending formula by which it expends not only the yield but also a prudent portion of the appreciation of the principal. Does not include gains spent for current operations, which are treated as transfers.

Enrollment The total number of students registered in a given school unit

at a given time, generally in the fall of a year.

Expenditures Charges incurred, whether paid or unpaid, which are presumed to benefit the current fiscal year. For degree-granting institutions, these include current outlays plus capital outlays.

Federal sources Includes federal appropriations, grants, and contracts, and federally funded research and development centers (FFRDCs). Federally subsidized student loans and Pell Grants are not included.

First-professional degree A degree that signifies both completion of the academic requirements for beginning practice in a given profession and a level of professional skill beyond that normally required for a bachelor's degree. This degree usually is based on a program requiring at least 2 academic years of work prior to entrance and a total of at least 6 academic years of work to complete the degree program, including both prior-required college work and the professional program itself. By NCES definition, first-professional degrees are awarded in the fields of dentistry (D.D.S. or D.M.D.), medicine (M.D.), optometry (O.D.), osteopathic medicine (D.O.), pharmacy (D.Phar.), podiatric medicine (D.P.M.), veterinary medicine (D.V.M.), chiropractic (D.C. or D.C.M.), law (J.D.), and theological professions (M.Div. or M.H.L.).

First-professional enrollment The number of students enrolled in a professional school or program which requires at least 2 years of academic college work for entrance and a total of at least 6 years for a degree. By NCES

definition, first-professional enrollment includes only students in certain programs. (See First-professional degree for a list of programs.)

Full-time-equivalent (FTE) enrollment

A measurement equal to one student enrolled full time for one academic year. Total FTE enrollment equals the full-time plus the calculated equivalent of the part-time enrollment. The full-time equivalent of the part-time students can be estimated using different factors depending on the type and control of institution and level of student.

Full-time instructional faculty Those members of the instruction/research staff who are employed full-time and whose major regular assignment is instruction, including those with released time for research and faculty on sabbatical leave. Full-time counts exclude faculty who are employed to teach less than two semesters, three quarters, two trimesters, or two 4-month sessions; replacements for faculty on sabbatical leave or those on leave without pay; faculty for preclinical and clinical medicine; faculty who are donating their services; faculty who are members of military organizations and paid on a different pay scale from civilian employees; academic officers, whose primary duties are administrative; and graduate students who assist in the instruction of courses.

Full-time student A student enrolled in courses with total credit load equal to at least 75 percent of the normal full-time course load.

Government appropriation Revenues received by an institution through acts of a legislative body, except grants and contracts. These funds are for meeting

current operating expenses and not for specific projects or programs. The most common example is a state's general appropriation. Appropriations primarily to fund capital assets are classified as capital appropriations.

Government grant or contract

Revenues from a government agency for a specific research project or other program.

Graduate enrollment The number of students who hold the bachelor's or firstprofessional degree, or the equivalent, and who are working towards a master's or doctor's degree. First-professional students are counted separately. These enrollment data measure those students who are registered at a particular time during the fall. At some institutions, graduate enrollment also includes students who are in post-baccalaureate classes but not in degree programs. In specified tables, graduate enrollment includes all students in regular graduate programs and all students in postbaccalaureate classes but not in degree programs (unclassified postbaccalaureate students).

Graduate student A student who holds a bachelor's or first-professional degree, or equivalent, and is taking courses at the post-baccalaureate level.

Graduation Formal recognition given an individual for the successful completion of a prescribed program of studies.

Higher education Study beyond secondary school at an institution that offers programs terminating in an associate, baccalaureate, or higher degree.

Higher education institutions

4-year institution A postsecondary institution that offers programs of at least 4 years duration or one that offers programs at or above the baccalaureate level. Includes schools that offer postbaccalaureate certificates only or those that offer graduate programs only. Also includes free-standing medical, law or other first-professional schools. In some tables, a further division between universities and other 4-year institutions is made.

2-year institution A postsecondary institution that offers programs of at least 2 but less than 4 years duration. Includes occupational and vocational schools with programs of at least 1800 hours and academic institutions with programs of less than 4 years. Does not include bachelor's degree-granting institutions where the baccalaureate program can be completed in 3 years.

Historically Black colleges and universities The Higher Education Act of 1965, as amended, defines an HBCU as: "...any historically black college or university that was established prior to 1964, whose principal mission was, and is, the education of black Americans, and that is accredited by a nationally recognized accrediting agency or association determined by the Secretary [of Education] to be a reliable authority as to the quality of training offered or is, according to such an agency or association, making reasonable progress toward accreditation." Federal regulations (20 USC 1061 (2)) allow for certain exceptions to the founding date.

Independent operations Expenses associated with operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may contribute indirectly to the enhancement of these programs. For purposes of financial surveys conducted by the National Center for Education Statistics, this category is composed principally of federally funded research and development centers (FFRDC).

Institutional support A functional expense category that includes expenses for the day-to-day operational support of the institution and excludes expenditures for physical operations. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the costs associated with student services and operation and maintenance of plant will also be applied to this function.

Instruction A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education,

preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support).

Investment return Income from assets, including dividends, interest earnings, royalties, rent, gains (losses), etc.

Land-grant colleges The First Morrill Act of 1862 facilitated the establishment of colleges through grants of land or funds in lieu of land. The Second Morrill Act in 1890 provided for money grants and for the establishment of Black land-grant colleges and universities in those states with dual systems of higher education.

Mandatory transfer A transfer of current funds that must be made in order to fulfill a binding legal obligation of the institution. Included under mandatory transfers are debt service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest and (2) required provisions for renewal and replacement of buildings to the extent these are not financed from other funds. Also includes the institutional matching portion for Perkins loans when the source of funds is current revenue.

Master's degree A degree awarded for successful completion of a program generally requiring 1 or 2 years of full-

time college-level study beyond the bachelor's degree. One type of master's degree, including the Master of Arts degree, or M.A., and the Master of Science degree, or M.S., is awarded in the liberal arts and sciences for advanced scholarship in a subject field or discipline and demonstrated ability to perform scholarly research. A second type of master's degree is awarded for the completion of a professionally oriented program, for example, an M.Ed. in education, an M.B.A. in business administration, an M.F.A. in fine arts, an M.M. in music, an M.S.W. in social work, and an M.P.A. in public administration. A third type of master's degree is awarded in professional fields for study beyond the first-professional degree, for example, the Master of Laws (L.L.M.) and Master of Science in various medical specializations.

Nonresident alien A person who is not a citizen or national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely.

Part-time student A student enrolled in courses with a total credit load less than 75 percent of the normal full-time credit load

Postsecondary education The provision of formal instructional programs with a curriculum designed primarily for students who have completed the requirements for a high school diploma or equivalent. This includes programs of an academic, vocational, and continuing professional education purpose, and excludes avocational and adult basic education programs.

Private school or institution A school or institution which is controlled by an individual or agency other than a state, a subdivision of a state, or the federal government, which is usually not supported primarily by public funds, and is not operated by publicly elected or appointed officials.

Private, for-profit institution A private institution in which the individual(s) or agency in control receives compensation other than wages, rent, or other expenses for the assumption of risk.

Private, not-for-profit institution A private institution in which the individual(s) or agency in control receives no compensation, other than wages, rent, or other expenses for the assumption of risk. These include both independent not-for-profit schools and those affiliated with a religious organization.

Public institution A school or institution controlled and operated by publicly elected or appointed officials and deriving its primary support from public funds.

Racial/ethnic group Classification indicating general racial or ethnic heritage based on self-identification, as in data collected by the U.S. Bureau of the Census or on observer identification, as in data collected by the Office for Civil Rights. Data categories collected for IPEDS are in accordance with the Office of Management and Budget standard classification scheme presented below:

White A person having origins in any of the original peoples of Europe,

North Africa, or the Middle East. Excludes persons of Hispanic origin.

Black or African American A person having origins in any of the black racial groups in Africa. Excludes persons of Hispanic origin.

Hispanic or Latino A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Asian or Pacific Islander A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

American Indian or Alaskan Native A person having origins in any of the original peoples of North and South America (including Central America) and maintaining cultural identification through tribal affiliation or community recognition.

Revenues All funds received from external sources, net of refunds, and correcting transactions. Noncash transactions such as receipt of services, commodities, or other receipts in-kind are excluded as are funds received from the issuance of debt, liquidation of investments, and nonroutine sale of property.

Salary The total amount regularly paid or stipulated to be paid to an individual, before deductions, for personal services rendered while on the payroll of a business or organization.

Sales and services Revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research, or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, and dairy products.

Scholarships and fellowships This category of college expenditures applies only to money given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or not. Aid to students in the form of tuition or fee remissions is included. College workstudy funds are excluded and are reported under the program in which the student is working. Loans to students are also not included. In the tabulations in this volume, Pell Grants are not included in this expenditure category.

Tuition and fees A payment or charge for instruction or compensation for services, privileges, or the use of equipment, books, or other goods.

Undergraduate A student enrolled in a 4- or 5-year bachelor's degree program, an associate's degree program, or a vocational or technical program below the baccalaureate.

Appendix C: Technical Notes

Integrated Postsecondary Education Data System

The Integrated Postsecondary Education Data System (IPEDS) surveys approximately 10,000 postsecondary institutions, including universities and colleges, as well as institutions offering technical and vocational education beyond the high school level. This survey, which began in 1986, replaced the Higher Education General Information Survey (HEGIS). IPEDS consists of nine integrated components that obtain information on who provides postsecondary education (institutions), who participates in it and completes it (students), what programs are offered and what programs are completed, and both the human and financial resources involved in the provision of institutionally based postsecondary education. Specifically, these components include: Institutional Characteristics; Fall Enrollment; Completions; Employees Assigned by Position; Finance; Fall Staff; Faculty Salaries; Graduation Rate; Employees by Assigned Position and Student Financial Aid. Only the components that were used in this report are briefly described below.

Prior to 1993, data from the technical and vocational institutions were collected through a sample survey. Beginning in 1993, all data are gathered in a census of all postsecondary institutions. The tabulations on "Institutional Characteristics" used in this report are based on lists of all institutions and are not subject to sampling errors. According to Section 490 of the Higher Education Amendments of 1992 (P. L. 102-325), IPEDS is mandatory for any institutions that participate in or are applicants for participation in any federal financial assistance program authorized by Title IV of the Higher Education Act of 1965 as amended (20 USC 1094 (a)(17). For the Spring 2002 data collection, the overall response rate was 98.6 percent for degree-granting institutions (includes those eligible for Title IV federal financial aid programs that grant an associate's or higher degree) and 98.6 percent for non-degree-granting institutions. In addition, other postsecondary institutions that do not participate in Title IV are invited to participate.

The definition of institutions generally thought of as offering college and university education has been changed in recent years. The old standard for higher education institutions included those institutions that had courses that led to an associate degree or higher, or were accepted for credit towards those degrees. Higher education institutions were accredited by an agency or association that was recognized by the U.S. Department of Education, or recognized directly by the Secretary of Education. The current category includes institutions which award associate or higher-level degrees that are eligible to participate in Title IV federal financial aid programs. Time-series tables may contain data from both series. The impact of this change has generally not been large. For example,

tables on faculty salaries and benefits were only affected to a very small extent. Also, degrees awarded at the bachelor's level or higher were not heavily affected. The largest impact has been on private 2-year college enrollment. In contrast, most of the data on public 4-year colleges has been affected only to a minimal extent. The impact on enrollment in public 2-year colleges was noticeable in certain states, but relatively small at the national level. Overall, enrollment for all institutions was about one-half a percent higher for degree-granting institutions compared to the total for higher education institutions.

Prior to the establishment of IPEDS in 1986, HEGIS acquired and maintained statistical data on the characteristics and operations of institutions of higher education. Implemented in 1966, HEGIS was an annual universe survey of institutions accredited at the college level by an agency recognized by the Secretary of the U.S. Department of Education. These institutions were listed in NCES's *Education Directory, Colleges and Universities*.

HEGIS surveys solicited information concerning institutional characteristics, faculty salaries, finances, enrollment, and degrees. Since these surveys were distributed to all higher education institutions, the data presented are not subject to sampling error. However, they are subject to nonsampling error, the sources of which varied with the survey instrument. Information concerning the nonsampling error of the enrollment and degrees surveys draws extensively on the *HEGIS Post-Survey Validation Study* conducted in 1979.

Nonsampling Errors

Although universe data are not subject to sampling errors, nonsampling errors may arise when respondents or interviewers interpret questions differently, when respondents must estimate values, or when coders, keyers, and other processors handle answers differently, when persons who should be included in the universe are not, or when persons fail to respond (completely or partially). Nonsampling errors usually, but not always, result in an understatement of total survey error and thus an overstatement of the precision of survey estimates. Since estimating the magnitude of nonsampling errors often would require special experiments or access to independent data, these nonsampling errors are seldom available.

To compensate for nonresponse, adjustments of the sample estimates are often made. An adjustment made for either type of nonresponse, total or partial, is often referred to as an imputation, which is often a substitution of the "average" questionnaire response for the nonresponse. Imputations are usually made separately within various groups of surveyed members that have similar survey characteristics. Imputation for item nonresponse is usually made by substituting for a missing item, the response to that item of a respondent having characteristics that are similar to those of the nonrespondent.

Institutional Characteristics

This survey provides the basis for the universe of institutions presented in the *IPEDS COOL online directory*. The survey collects basic information necessary to classify the institutions including control, level, and kinds of programs; and information on tuition, fees, and room and board charges. The survey collects institutional pricing data from institutions with first-time, full-time, degree/certificate-seeking undergraduate students. Unduplicated full-year enrollment counts and instructional activity are now collected on the Fall Enrollment survey. The overall response rate for fall 2002 was 99.2 percent for Title IV degree-granting institutions.

Patricia.Brown@ed.gov
http://nces.ed.gov/ipeds/

Fall Enrollment

This survey has been part of the HEGIS and IPEDS series since 1966. The 2001 overall response rate was 97.9 percent for Title IV degree-granting institutions. For all institutions that did not report in 2001, data from the previous year were used as 2001 estimates. Major sources of nonsampling error for this survey as identified in the 1979 report were classification problems, the unavailability of needed data, interpretation of definitions, the survey due date, and operational errors. Of these, the classification of students appears to have been the main source of error. Institutions had problems in correctly classifying first-time freshmen and other first-time students for both full-time and part-time categories.

Beginning with fall 1986, the survey system was redesigned with the introduction of IPEDS (see above). The survey allows (in alternating years) for the collection of age and residence data. In 2000, the Enrollment survey collected the instructional activity and unduplicated headcount data, which are needed to compute a standardized, full-time equivalent (FTE) enrollment statistic for the entire academic year. Starting in 2001, unduplicated headcount by level of student, and by race/ethnicity and gender of student was instituted, as was the total number of students in the entering class. Institutions were asked to report race/ethnicity data in the following seven categories: White, non-Hispanic; Black, non-Hispanic; Hispanic; Asian/Pacific Islander; American Indian/Alaska Native; race/ethnicity unknown; and non-resident alien. The response rate for the Spring 2002 data collection was 94.9 percent.

Salaries

This institutional survey has been conducted for most years from 1966-67 to 1987-88, and annually since 1989-90. Although the survey form changed a number of times during those years, only comparable data are presented in this report.

Between 1966-67 and 1985-86 this survey differed from other HEGIS surveys in that imputations were not made for nonrespondents. Thus, there is some possibility that the salary averages presented in this report may differ from the results of a complete enumeration of all colleges and universities. Beginning with the surveys for 1987-88, the IPEDS data tabulation procedures included imputations for survey nonrespondents. The response rate for the 2001-02 survey was 93.8 percent for Title IV degree-granting institutions. Because of the higher response rate for public colleges, it is probable that the public colleges' salary data are more accurate than the data for private colleges. Although data from these surveys are not subject to sampling error, sources of nonsampling error may include computational errors and misclassification in reporting and processing. NCES reviews individual colleges' data for internal and longitudinal consistency and contacts the colleges to check inconsistent data. The response rate for the winter 2001-02 survey was 93.8 percent for Title IV degree-granting institutions.

Completions

This survey was part of the HEGIS series throughout its existence. However, the degree classification taxonomy was revised in 1970-71, 1982-83, and 1991-92. Collection of degree data has been maintained through the IPEDS system.

Though information from survey years 1970-71 through 1981-82 is directly comparable, care must be taken if information before or after that period is included in any comparison. Degrees-conferred trend tables arranged by the 1991-92 classification are included in this report to provide consistent data from 1970-71 to the most recent year. Data in this edition on associate and other formal awards below the baccalaureate, by field of study, cannot be made comparable with figures prior to 1982-83. Also, the collection of racial/ethnic data did not begin until 1975-76, and the collection method changed in 1990. The nonresponse rate did not appear to be a significant source of nonsampling error for this survey. The return rate over the years has been high, with the degree-granting institutions response rate for the 2000-01 survey at 92.3 percent. The overall response rate for the nondegree granting institutions was 84.4 percent in 1999-2000. Because of the high return rate for the degree-granting institutions, nonsampling error caused by imputation is also minimal.

The major sources of nonsampling error for this survey were differences between the NCES program taxonomy and taxonomies used by the colleges, classification of double majors, operational problems, and survey timing. In the 1979 HEGIS validation study, these sources of nonsampling contributed to an error rate of 0.3 percent overreporting of bachelor's degrees and 1.3 percent overreporting of master's degrees. The differences, however, varied greatly among fields. Over 50 percent of the fields selected for the validation study had no errors identified. Categories of fields that had large differences were business and management, education, engineering, letters, and psychology. It was also shown that differences in proportion to the published figures were less than 1 percent for most of the selected fields that had some errors. The response rate for the fall 2002 data collection was 96.9 percent for Title IV degree-granting institutions.

Finance

This survey was part of the HEGIS series and has been continued under the IPEDS system. Changes were made in the financial survey instruments in fiscal years (FY) 1976, 1982, and 1987. The FY 76 survey instrument contained numerous revisions to earlier survey forms and made direct comparisons of line items very difficult. Beginning in FY 82, Pell Grant data were collected in the categories of federal restricted grants and contracts revenues and restricted scholarships and fellowships expenditures. The introduction of IPEDS in the FY 87 survey included several important changes to the survey instrument and data processing procedures. While these changes were significant, considerable effort has been made to present only comparable information on trends in this report and to note inconsistencies. Finance tables for this publication have been adjusted by subtracting the largely duplicative Pell Grant amounts from the later data to maintain comparability with pre-FY 82 data.

Possible sources of nonsampling error in the financial statistics include nonresponse, imputation, and misclassification. The response rate has been about 85 to 90 percent for most of the years. The response rate for the Spring 2002 data collection was 93.4 percent for all institutions (95.3 percent for degree-granting and 82.7 percent for non-degree-granting).

Two general methods of imputation were used in HEGIS. If the prior year's data were available for a nonresponding institution, these data were inflated using the Higher Education Price Index and adjusted according to changes in enrollments. If no previous year's data were available, current data were used from peer institutions selected for location (state or region), control, level, and enrollment size of institution. In most cases estimates for nonreporting institutions in IPEDS were made using data from peer institutions.

Beginning with FY 87, the IPEDS survey system included all postsecondary institutions, but maintained comparability with earlier surveys by allowing 2- and 4-year institutions to be tabulated separately. For FY 87 through FY 91, in order to maintain comparability with the historical time series of HEGIS institutions, data were combined from two of the three different survey forms that make up the IPEDS survey system. The vast majority of the data were tabulated from form 1 (the "short form"), which was used to collect information

from public and private not-for-profit 2- and 4-year colleges. Form 2 (the "consolidated form") was used to gather data for the 2-year for-profit institutions. Because of the differences in the data requested on the two forms, several assumptions were made about the form 2 reports so that their figures could be included in the degree-granting institutions totals.

In IPEDS, the form 2 institutions were not asked to separate appropriations from grants and contracts, nor state from local sources of funding. For the form 2 institutions, all the federal revenues were assumed to be federal grants and contracts, and all of the state and local revenues were assumed to be restricted state grants and contracts. All other form 2 sources of revenue, except for tuition and fees and sales and services of educational activities, were included under "other." Similar adjustments were made to the expenditure accounts. The form 2 institutions reported instruction and scholarship and fellowship expenditures only. All other educational and general expenditures were allocated to academic support.

For the academic year 1996-97, the format used to collect finance data for private, not-for-profit institutions changed to accommodate changes in accounting standards. The Financial Accounting Standards Board (FASB) issued statements of accounting standards requiring the format of general purpose financial statements for private, not-for-profit organizations including higher education institutions to change, causing finance data collected prior to 1996-97 to be inconsistent with data collected in 1996-97 and after.

To reduce reporting error, NCES uses national standards for reporting finance statistics. These standards are contained in *College and University Business Administration:* Administrative Services (1974 Edition), and the Financial Accounting and Reporting Manual for Higher Education (1990 Edition), published by the National Association of College and University Business Officers; Audits of Colleges and Universities (as amended August 31, 1974), by the American Institute of Certified Public Accountants; and HEGIS Financial Reporting Guide (1980), by NCES. Wherever possible, definitions and formats in the survey form are consistent with those in these four accounting texts.

Fall Staff

The fall staff data presented in this publication were collected by NCES through the IPEDS system, which collected data from postsecondary institutions, including all 2- and 4-year degree-granting education institutions. NCES collects staff data biennially in odd numbered years from all Title IV postsecondary institutions that have 15 or more full-time employees. In 1993, this survey replaced the EEO-6 survey conducted by the Equal Employment Opportunity Commission.

Respondents reported the employment statistics in their institution as of November 1. The "Fall Staff, 1999" survey had an overall response rate of 94.8 percent for degree-granting institutions. Data collection for 1999 differed from earlier methods. For all institutions that did not respond to the survey, data from the 1997 survey were used as estimates for fall 1999. The response rate for the Winter 2001-02 data collection was 97.6 percent for all Title IV degree-granting institutions.

Student Financial Aid

This component of the survey has two parts—a section on student counts and one on financial aid. Student counts are collected based on fall enrollment and public institutions are asked to provide additional counts by in-district, in-state, and out-of-state students. Student counts are based on a cohort and will differ depending on calendar year. The number of full-time, first-time degree/certificate-seeking undergraduates students who received any financial aid during the academic year is collected. Further, for each of four types of aid, the number (in the cohort) of full-time, first-time degree/certificate-seeking undergraduates receiving the aid and the average amount of aid received are collected. The four types of aid are federal grants, state/local grants, institutional grants, and loans to students. The response rate for the Spring 2002 data collection was 93.4 percent for Title IV degree-granting institutions.
